

June 2022 - Performance Evaluation

Team Member Name:	Luthfulahi Oseni
Position/Title:	Front End Engineer
Supervisor Name:	Rich Mokuolu and Roland Mokuolu
Department:	Technology
Hire Date:	September 29, 2021

Date of Evaluation	Evaluation Period	
June 28, 2022	From: September 29, 2021	To: June 27, 2022

Key Responsibilities

- Implementation of front-end user experience/interactions of the Partsimony application
- Collaborating with back-end and infrastructure team members
- Collaborating with the management team on user experience and interactions to address customer needs
- Clean documentation

Accomplishments

- Working hard to enable us to launch Partsimony 2.0
- Excel quoting implementation
- Stripe onboarding implementation
- Dashboard views
- Connections pages
- Events/notifications pages
- RFP Ranking
- Settings pages

Strengths

- Pursuit of excellence in work quality
- Innate curiosity—evaluating the logic behind proposed solutions and best practices
- Collaborative team player — providing support on urgent tasks when a team member is swamped
- Building up others around you
- Improving team culture & processes (e.g. #kudos channel, QA template, etc.)
- Taking initiative in proactively resolving problems
- High EQ (Emotional Intelligence)

Areas for Improvement

- Increasing the pace of output—we understand this could be due to the nature of roadblocks encountered while working with excel files
- Urgency on addressing roadblocks
- Utilizing GitLab & Notion to build out Engineering Wiki

Job Specific Competencies

Aa Name	📉 Rating	☰ Notes
<u>Front-end engineering</u>	👍 Meets Expectations	Good job on front-end engineering. Increasing the quality of output and optimizing for the best front-end infrastructure will result in an exceptional rating.
<u>Collaborating with back-end and infrastructure team members</u>	💪 Exceeds Expectations	Great collaborative relationship with members of the back-end and infrastructure team. In addition to your fellow front-end engineering team member.
<u>Collaborating with management team members</u>	💪 Exceeds Expectations	Great collaborative relationship with members of the management team.
<u>Clean documentation</u>	🔧 Needs Improvement	Utilizing GitLab & Notion to build out Engineering Wiki.

Core Competencies

Aa Name	Rating	Notes
<u>Problem Solving</u>	👍 Meets Expectations	Good critical thinking mindset to identify potential solutions to problems. Highlighting how a potential solution will lead to less operational/infrastructure complexity but more powerful outcomes will lead to an exceptional rating.
<u>Decision Making</u>	👍 Meets Expectations	Discussing more of the pros/cons when evaluating a decision and accounting for additional perspectives in decision-making will lead to an exceptional rating.
<u>Communication</u>	💪 Exceeds Expectations	You have great overall communication skills. Providing more clean documentation of roadblocks and implemented solutions will result in an exceptional rating.
<u>Quality / Attention to Detail</u>	👍 Meets Expectations	Testing relevant tasks in the dev environment prior to updating a task as “QA Ready” in Linear should help increase quality and highlight details that may be unique to the dev environment vs. the local environment. Implementing unit tests will result in an exceptional rating.
<u>Teamwork / Collaboration</u>	💪 Exceeds Expectations	Your approach to working as a team fosters a collaborative and enjoyable work environment.
<u>Output</u>	👍 Meets Expectations	Dealing with bugs has impacted the pace of output on the front-end. However, new improvements being implemented should help lead to an exceptional output in the near future.
<u>Initiative</u>	💪 Exceeds Expectations	Great job taking initiative and vocalizing how we can be better as a team.
<u>Customer Orientation</u>	💪 Exceeds Expectations	Focused on providing a delightful user experience.

Aa Name	Rating	Notes
<u>Engagement</u>	👑 Exceptional	Dedication to revolutionizing the way physical products are made to create a better future.

Management Competencies

Aa Name	Rating	Notes
<u>Stewardship / Resource Management</u>	💪 Exceeds Expectations	Great job on striving to implement the best culture and processes at Partsimony. Taking on more initiatives to improve the team's performance will lead to an exceptional rating.
<u>Strategic planning</u>	👍 Meets Expectations	Increased display of ability to think through potential optimization considerations especially as it relates to front-end infrastructure will lead to an exceptional rating.
<u>Leadership</u>	👍 Meets Expectations	Embrace being a leader in the team and driving tasks forward. Taking more oversight of team members' code quality & output would lead to an exceptional rating.
<u>Resilience</u>	💪 Exceeds Expectations	Worked hard to get us to launch the new Partsimony 2.0 platform.

Overall Performance: Meets Expectations 👍
